## PROJECTS

---

### Weather forecast App

- Used RapidAPI to fetch weather data for different cities, a dynamic and useful feature for the application.
- This project demonstrates proficiency in front-end technologies and integration with external APIs for dynamic content delivery.

### Quizify (CLI Quiz App)

[@ParthPurohit3/Quizify](#)

- The App provides an interactive quiz platform that tests users' knowledge of JavaScript through a series of questions and answers.
- A practical learning tool to deepen understanding of array manipulation and logical operations.

### Wish-List

[@Parth499/Wish-List.git](#)

- The Wishlist Manager project aims to deepen understanding of event delegation, event bubbling, and event capturing in js.
- By applying event listeners to a parent element and utilizing event delegation, the project efficiently handles multiple checkboxes for wishlist items, accommodating varying numbers of wishlist users.
